<https://github.com/expo/expo-cli/issues/1074>

C:\Users\mkopc\AppData\Roaming\npm\node_modules

obrisati ručno

node js downgrade na 12.9

after node downgrade i further did

npm uninstall --g expo-cli npm install --g expo-cli

to be able to compile my code

I did not make change into any local node module. Everything worked.
